

# MVA with Entrapment in Endicott

by N. Griswold

During the midday hours of May 13th, 2014 Endicott Fire was dispatched by Broome County Communications to the intersection of Monroe Street and Harrison Avenue for a two car MVA possibly with entrapment. While enroute police arrived and confirmed a t-bone accident with injuries and entrapment in one of the vehicles.

Quint 25, EMS 25, Inspector 25, and Chief 25 all responded from the fire department and began assessing patients. One patient was still trapped in a vehicle with all occupants including several children already out of the other. The vehicles were stabilized and hydraulic tools were deployed but not utilized due to the patient more easily being removed through the passenger side door.

Investigation in the accident is being handled by Endicott Police. Vehicles both had to be towed from the scene. Endicott Fire was assisted on scene by Endicott Police, Union Ambulance, and Superior Ambulance. All crews were clear of the scene in less than an hour.

This incident was also notable as it was the maiden emergency voyage for Endicott's new Sutphen SA '75 Quint which went in service earlier in the day.
