# NY-Sun PV Trainers Network

## **Safety and Fire Considerations for Solar PV Workshop**

**Hosted by the Oxford Fire Department**

Wednesday, January 6, 2016

6:00 – 9:00pm

The NYSEERDA's NY-Sun PV Trainers Network invites all first responders to attend the Safety and Fire Considerations for Solar PV Workshop that will be held at the **Oxford Academy and Central School** on **January 6, 2016** from **6:00 – 9:00pm**.

This course will provide first responders, such as fire fighters and rescue personnel, with a training on safety precautions and fire code considerations with respect to the recognition and disabling of PV systems. This training will include solar technology identification on the premises, disconnecting methods, and code requirements for roof coverage by modules. Additionally, this training will address access to safe walking space, access to ventilation, location and identification of disconnect switches, DC and AC system conduits and conductors, and battery backup systems.

**What:** Safety and Fire Considerations for Solar PV

**Where:** Oxford Academy and Central School,  
Auditorium  
50 South Washington Avenue  
Oxford, NY 13830

**When:** January 6, 2016 from 6:00-9:00pm

**Fee:** This training is free to attend (Seating is limited, Register early)

**Accreditation:** 3 in-service hours for the NY Department of State Division of Building Standards and Codes

Refreshments will be served.

**About the program:** The NY-Sun PV Trainers Network aims to expand adoption and reduce installation costs of solar energy in New York State. Through education, training, and technical assistance, the Network helps local governments and stakeholders identify opportunities, mitigate barriers, and create programs that drive development of solar photovoltaic (PV) markets in communities across New York State. Please visit <https://training.ny-sun.ny.gov/> for more information on the NY-Sun PV Trainers Network.
