

CHENANGO FIRE TAKES DELIVERY ON NEW RESCUE

2007- Chenango Fire Company, Inc., has taken delivery of a new rescue. The vehicle has an HME long four door chassis with SCBA seating and a command post in the rear. The apparatus body was made by EVI Emergency Vehicles and has a cascade system, light tower, upper coffin compartments, pull out tool boards, speedy dry compartment, and many, many other features. The committee worked long hours planning and designing this apparatus and their hard work shows throughout.
