

CONTOUR CONSTRUCTION LLC DONATES TO ASSIST FIRE DEPARTMENTS AFFECTED BY FLOODING

January 2007

At the January meeting of the Broome County Firefighters Association held at West Corners, Dave Black, President of Contour Construction Company donated \$1500 to the Association. This was collected at a charity golf tournament held in the summer and the company wanted to do something to assist all of the departments involved in the flooding.

The Association would like to thank Contour Construction for their generosity. The association is currently trying to find something that would benefit all of the departments involved in the floods. One suggestion has been a water rescue training class. If you have a suggestion as to how this money could be spent to help of the departments affected by floods, please contact us.
