Subject: "I AM RESPONDING" System Demonstration

Director Brett Chellis has invited representatives of Broome County EMS agencies to attend a demonstration of the "I Am Responding" system, a telephone and web-based method for emergency personnel to INDIVIDUALLY indicate that they are responding on emergency calls, in such a way that both their agency and the Communications Center can receive this information immediately. This system has great potential for helping us solve our current "off-duty" response issues.

Director Chellis has applied to use federal grant funds to pay for this system for use by all Broome County emergency services agencies (Police, Fire, and EMS) for a multi-year period, and would like agency leaders to become familiar with its capabilities.

The demonstration will take place before a scheduled meeting of the Broome County Fire Chiefs' Association on Thursday August 7, beginning at 19:00 hours, at the Public Safety Facility.

No RSVP is required!
