

The Road to a Line of Duty Death

The good news is that the Line of Duty Death numbers for 2009 are the lowest since 1993.

The bad news is that we still lost 93 brother and sister firefighters in the United States and 8 right here in NY.

This program will look at the difference, or lack thereof, between your department and the countless others that have had line of duty deaths. Could yours be next?

Presented by: Dave Denniston, Client Education & Training Manager for McNeil & Company Inc. Dave also serves as Executive Director of the National FARMEDIC Training Program.

He has over 20 years in Fire and Emergency Services and is Past Chief of the Cortlandville Fire Department.

Dave is also Deputy Fire/EMS Coordinator in Cortland County and a Fire Commissioner in the Virgil Fire District.
