**Friday Evening November 11<sup>th</sup>**

**Pre-Conference & Social Time**

- Cyanide Exposure – A New Look at an Old Killer** *Kenneth Palazzo, FP-C, I/C*  
Cyanide can be a silent killer, this session will look at recognizing exposure, treatment and when is Cyanokit indicated. Come join us – it may surprise you!
- Social Time immediately following the presentation.** Join us for free music, games, food and prizes. Cash bar. *Sponsored by Air Methods*

**Saturday November 12<sup>th</sup>**

**Opening Presentation**

**Did You Hear The One About ....**

*Christopher Ebright, NREMT-P*

This upbeat and interactive session uses actual case studies involving atypical patient presentation to encourage the audience to hone their critical thinking skills.

**Saturday November 12<sup>th</sup>**

**Breakout Session #1 (Check one from A, B or C)**

- (A) CISM – From Tragedy to Strategy**  
*Rev. Michael Hughes*  
This interactive session addresses responder CISM needs in large disasters and when to call for help.
- (B) Why Can't This Child Breathe?**  
*Chad Pezzano, MA, RRT-NPS*  
This is an engaging and indepth look at undiagnosed congenital heart defects in children.
- (C) Top Ten Trauma Killers**  
*Maryann Fields RN, BSN, CNOR*  
Whew . . . You met the golden hour . . . or did you? Is definitive care the Air Medical team, the ED, or is it somewhere else? Learn where and when definitive care is in your facility.

**Saturday November 12<sup>th</sup>**

**Breakout Session #2 (Check one from D, E or F)**

- (D) I'll Huff & I'll Puff & I'll Pass Out**  
*Christopher Ebright, NREMT-P*  
Attendees will learn how to assess and treat different poisons while highlighting scene safety parameters.
- (E) Blast Lung Injuries**  
*Steven M Buhner RN, CEN, BSN NREMT-P*  
Take an in-depth look at the mechanics of blasts and the components of blast injuries. Signs and symptoms, hospital diagnostic and medical management issues will be explored
- (F) The Expanding Belly**  
*Steve Adkisson, RN*  
This lecture will look at the MOI, appropriate assessment and diagnostic studies preferred for abdominal trauma. Issues in nursing care and appropriate interventions for their patients will be addressed.

**Saturday November 12<sup>th</sup>**

**Breakout Session #3 (Check one from G, H or I)**

- (G) The Way the Body Bounces – Mechanisms of Injury**  
*Maryann Fields RN, BSN, CNOR*  
Learn how knowledge of the MOI assists in patient evaluation and treatment. Blunt & penetrating injury patterns, fractures and abdominal injuries included.
- (H) The Atypical MI: The One's We Don't Expect**  
*Guy Rogers Jr., MPAS, PA-C*  
This presentation will refresh your understanding of cardiac risk factors, cardiac anatomy and physiology and review on 12-lead interpretation.
- (I) Pulmonary Complications of Illicit Drug Use**  
*Chad Pezzano, MA, RRT-NPS*  
This presentation is an update on emergency therapies in asthma management and will cover the signs, symptoms and treatment guidelines of a patient who "huffed".

**Saturday November 12<sup>th</sup>**

**Closing Presentation**

**The Night Joe's Crab Shack Almost Changed Everything** *Christopher Ebright, NREMT-P*

This presentation is based on an actual event and goes through the signs, symptoms and treatment of anaphylaxis.
