### **Information from NYS AFC on the flashover simulator:**

#### **Program Details:**

It is said that if you're more than five feet from the doorway, your chance of survival in a flashover is minimal. Working in this program, you'll experience fire development from the incipient stage all the way to flashover. You'll be able to identify the signs of the event before you're part of the flashover. If you've never been in a flashover container, this program – staffed by America's most seasoned instructors with years of experience teaching with a simulator – is a must. Program includes a one-hour classroom lecture, followed by intense live fire hands-on training evolutions in the flashover simulator.

#### **Student Prerequisites:**

Firefighter I OR Basic Firefighter and Intermediate Firefighter OR Firefighting Essentials and Initial Fire Attack. Each student must provide a signed "Authorization Letter" from the chief of his/her department (a sample letter will be provided with each student's registration confirmation). Student must complete lecture portion of this program to participate in Hands-On Training segment.

#### **PPE Requirements:**

Turnout coats and helmets will be provided to avoid heat and smoke damage to students' department gear. Each student must bring bunker pants, hood, gloves, SCBA, and one spare cylinder.
