

Reading Smoke Signals

Tuesday Sept 16th at 7PM

Description: The ability to read and interpret smoke is an art. The smoke speaks volumes as to what is going on inside and what is going to happen. Understanding the “Smoke Signals” will help firefighters and officers predict dangerous events and prevent firefighter injuries. The class covers all aspects of smoke and fire behavior as well as tactics for dealing with dangerous conditions.

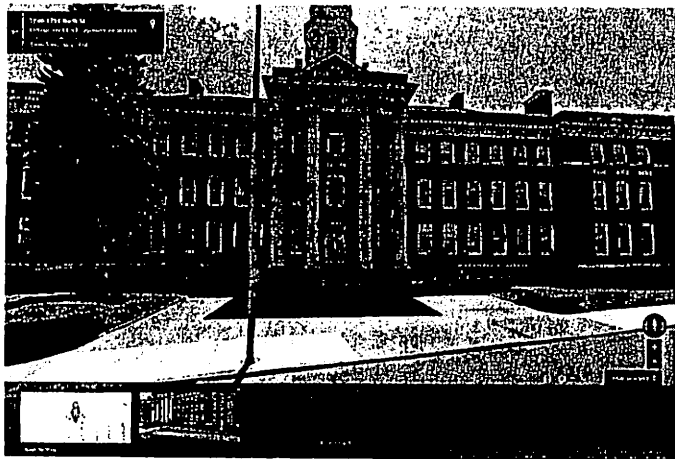

Please let us know as soon as possible the number of Firefighters from your Fire Department that will be attending this class.

Call Chief Thomas at 765-6579

with the head count and FD name.
